

## **RECOVERY OPERATIONS:**

Personal safety shall remain priority for all operations

### Personal Safety:

- Remain clam
- Protect yourself by using personal protective equipment
- Conduct damage assessment
- Remove or control hazards to personal safety
- Post barricades and warning signs regarding known hazards

### Protect Property:

- Secure breached locations
- Pump/wet vacuum flooded areas
- Perform temporary repair and damage mitigation activities

### Restore Services:

- Test utility systems and services and 'tag-out' as appropriate
- Re-energize systems

### Return to Operation:

- Activate mutual-aid and assistance agreements
- Activate vendor agreements

Specific information regarding restoration and recovery of damaged building contents is available on the recovery procedures page.
